Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Applicant's claims are allowable for the reasons noted in the August 24, 2006 response. Specifically, the prior art fails to anticipate or render obvious the claimed "relationship between the average particle size d of the acrylic ester rubber polymer and the amount w of crosslinking agent used in the acrylic ester rubber polymer." Furthermore, the declaration filed August 24, 2006 demonstrates unexpected results with respect to the above noted relationship as it relates to stress-whitening resistances. It is further noted the applied art is silent with respect to the claimed graft ratio of the acrylic graft copolymer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
